

The End is Near

Weekly Report Thirty-Three 05/14/18-05/20/18

The end of the school year is only eight days away. However, the end of Independent Study and Mentorship is only five days away. There is a lot to get done in those five days, in order for everything to be ready for final presentation night.

While there is a lot that needs to be finished. The final product is officially finished. That is the most exciting thing to happen in weeks. It was a long process but having it finished it feels calming. There still are a few more little things such as submitting all the sheets and sending the video to Mrs. Kugler, but the hard part is over.

The end of the final product does not mean the end of the year, because final presentation night still has to be finished. It is the last bit of stress and work for this year of Independent Study and Mentorship. However, it is not big things, as much as a bunch of little things. Obviously there is the actual presentation and speech, but that is the only big thing. Stress still is involved a lot because it should be perfect in order to show how much work has been done throughout this entire year. However, once May 29th, 2018 is finished, Independent Study and Mentorship is finished.
